Status of profession:

Professional Title/ Qualification: Not specified There is no state protection of the physiotherapy title or the professional activity. The rules of professional conduct are determined directly by the state through national legislation. Registration or licence to practice is not required but a code of ethics for physiotherapists has been established. The national authority responsible for the physiotherapy profession in Poland has not been specified by the polish association. Employment for physiotherapists cannot be guaranteed.

Practice of physiotherapy:

The physiotherapy services in Poland are determined by the profession. The physiotherapist is not allowed to determine the clinical intervention of physiotherapy him/herself. Poland offers both public and private physiotherapy services. The insurance cover for physiotherapy is paid both through the national health care system and privately by the patient.

Twinning:

The Polish association has established a twinning program with Germany (no yearly cost estimated). No governmental or EU funding has been obtained. The association herewith announces its wishes to extend its twinning activities to other countries.
