Professional Title/ Qualification: Diplomierter Physiotherapeut FH (BSc) The title and the professional activity is protected by the state. The rules of professional conduct are determined directly by the state through national legislation. The physiotherapist must be state registered and obtain a licence to practice. Switzerland has established a code of ethics for physiotherapists. There are sufficient employment opportunities for physiotherapists in the country.

Practice of physiotherapy:

The physiotherapy services in Switzerland are not determined by the profession. The physiotherapist determines the clinical intervention of physiotherapy him/herself. Switzerland offers both private and public physiotherapy services. The insurance cover for physiotherapy is paid both through the national health care system and privately the patient.
